To whom it may concern

I would like to recommend from a halachic perspective the pre programmed yahrtzeit board, manufactured by Mark Sarachik

The yahrtzeit board is user friendly in terms of Shabbos and Yomtov. As its name implies the board is pre programmed and individual plaques will automatically switch on and off for all yahrzeit and yizkor dates.

It is programmed so that the lights will come on during a time when the shule is vacated.
